EFFECT OF HIGHWAY IMPROVEMENT  
ON LOCATION OF INDUSTRY

Compiled by  
Texas Transportation Institute  
November 1963

1. National Research Council--Highway Research Board Bulletin 268, p 13-28.
2. The economic & social effects of the Connecticut Turnpike on Eastern Connecticut.  
Connecticut Agricultural Experiment Station, Storrs, Conn., 1959.  
Includes industrial expansion as result of turnpike.
3. Boston's golden industrial semicircle.  
Greater Boston Business, Boston, 1959, 60p.
4. Some economic effects of the Lexington Northern belt line.  
Kentucky University-Bureau of Business Research, Lexington, 1960, 143p.  
Includes land value analysis and effect of the belt line on industrial establishments.
5. Impact of highway improvement on urban areas, David Levin.  
Highway Eng Conference, Ohio State Proceedings 1961, p 86-122.
6. Economic impact study of Massachusetts route 128.  
MIT 1958, 248p.
7. Economic impact study of Massachusetts route 128.  
MIT Industrial development survey 1958, 51p.  
(Presented at 1958 HRB mtg by A. J. Bone)
8. The relation of county roads to Indiana's industrial economy,  
A. J. Proctor.  
Purdue Road School Proceedings 1962, p 124-30.
9. Highway networks as a factor in the selection of commercial & industrial locations.  
Real Estate Research Corp., Chicago 1958, 69p.  
Includes study of Chicago, Hartford, and Pittsburgh.
10. The changing pattern of manufacturing plants and employment, 1950-1960, in the Detroit region.  
Detroit Met. Area Regional Planning Comm., Detroit 1961, 11p.  
Data on recent changes in the location pattern of manufacturing plants.

11. Impact of interstate highways in rural areas, William Pendleton.  
Purdue Road School Proc. 1961, p 92-109.
12. Future highways & urban growth, Smith (Wilbur) & Associates. New Haven, 1961, 376p.  
...Study of interstate highways and their impact on urban transportation and on general benefits to the national economy, land values, and public services.
13. Aberthan building atomic testing facility.  
New England Construction 20: p 40-1, April 16, 1956.  
Quick & easy access prime reason for location.
14. Highways-your industrial lifeblood.  
Arch Forum 100: p 52, March 54.
16. Bad roads affect industry.  
Roads & Road Const 31: p 276, October 1953.
17. Industrial land use in Burlington Co., New Jersey. Princeton Univ. Bureau of Urban Research, 1951, 89p.  
"Survey & analysis of selected factors affecting existing and potential industrial location along major transportation routes in New Jersey between Trenton & Camden," by Gerald Breese.
18. Lure of new roads gains industry, (Jefferson Co., Iowa).  
Highway Highlights 12-13, Dec 1961.
19. Economic impact of highways with particular reference to the Merrimack Valley.  
Boston University Business Review 8: p 22-30, Spring 1961.  
New and/or improved roads make sites closer in time to materials and markets necessary for retaining and expanding industry.
20. Industry & freeways (Spectacular growth for industry).  
Calif Highways & Pub Works 33: p 22-29, May-June 1954.
21. Industry & frontage roads (Freeway advantage to industry).  
California Highways & Pub Works 33: p 19-22, July-Aug 1954.
22. Chemical makers prefer plant sites new highways.  
Chem & Eng News 41: 26, July 1, 1963.  
Highways rank very high in plant location decisions, according to trucking industry survey.

23. Highways & small manufacturing plant locations.  
Management Research Summary (Small Business Administration)  
p 1-4, Nov 1962.  
Study deals with role of highways and highway proximity  
in location decisions of small manufacturing firms.
24. Where do rock industries fit in urban planning?  
Rock Products 65: p 50-3+, Nov 1962.
25. Airports attract industry.  
Urban Land 21: p 3-6, October 1962.  
Methods by which airport authorities can plan and develop  
airport areas to meet growing desires in industrial and  
commercial site location.
26. Expressway & industrial location.  
Appraisal Journal 27: p 203-211, Part I, April 1959.  
...Route 128 in Boston & 100 in Milwaukee, differing  
types of expressway routes, to illustrate types of  
development attracted thereto.
27. Highways as a factor in plant location.  
Appraisal Journal 27: p 62-68, January 1959.  
Highways and highway facilities related with respect to  
truck traffic, trucking cost, role of passenger car,  
local area and longer distance significance.
28. Expressway & industrial location.  
Traffic Quarterly 12: p 589-601, Oct 1958.
29. Some current trends affecting the value of industrial property.  
Appraisal Journal 26: p 87-96, Jan 1958 (Part 1)
30. Highways spur growth.  
Electronics (Business Edition) 30: p 39, Sept 20, 1959.  
New Hampshire's road program attracts firms.
31. Atomic power and location of industry, Walter Isard.  
Howard Business Review March 1950.
32. Tax Foundation, Inc.  
Factors affecting industrial location, a bibliography, New  
York 1956, 8p.
33. Transportation in Texas.  
Texas Parade 18: p 10-13, Feb 1958.  
Discussion of factors that make Texas attractive to industry.

34. What effect will toll roads have on local business?

Roads & Streets 98: p 43, January 1955.

Indiana toll road commission has hired Homer Hoyt to delve into effect of toll roads on industrial and land development, real estate values, general business conditions, and other economic factors.

35. New era for hill country.

Excavating Eng 56: p 21-22, Oct 1962.

Eastern Kentucky to open a new era in travel, farming and industry with 202 mile Eastern Turnpike.
